November 26, 2007

Dear Patient,

After more than 35 years of serving patients, I have decided to retire from medical practice effective January 31, 2008. It has been a pleasure providing for your health care needs, and, while I look forward to the opportunities retirement brings, I will miss the daily interactions with my patients and the warm relationships we have developed over the years.

In my absence, I have arranged for my Urology San Antonio colleagues to provide for your continued medical care. As your needs dictate, simply call the office, and our team will assist you in selecting a doctor to suit your unique requirements. You can learn more about each of our practice's 24 urologists including his or her education, training and clinical interests at [www.urologysanantonio.com](http://www.urologysanantonio.com). Be assured, that whichever of my partners you select, you will be in good hands.

If you plan to continue with Urology San Antonio, your medical records will be transferred electronically to your new urologist prior to your first appointment. If you select a physician from outside Urology San Antonio, you or your doctor may contact us at (210) 614-4544 Option 6 or online at [www.urologysanantonio.com](http://www.urologysanantonio.com) to request your medical records. Please be aware that records released directly to patients are subject to a \$10 processing fee; however, as a professional courtesy, this fee is waived when a consulting physician requests the records.

I have greatly valued our relationship, and thank you for your trust and confidence. Best wishes for your future health.

Sincerely,

Michael E. Newell, M.D.
